Tandy Leather Retail Store

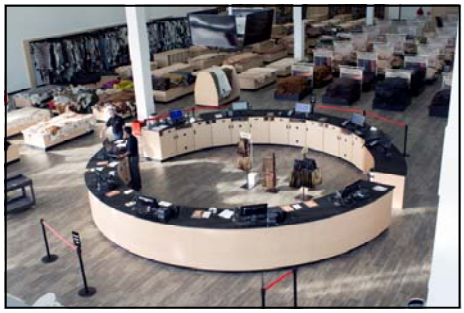
Location:
Fort Worth, Texas

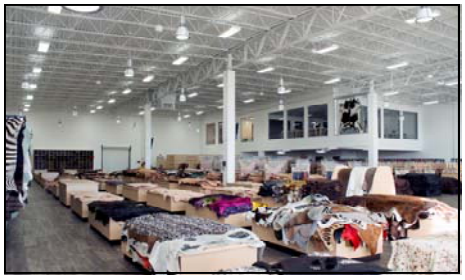
Size:
23,000 SF

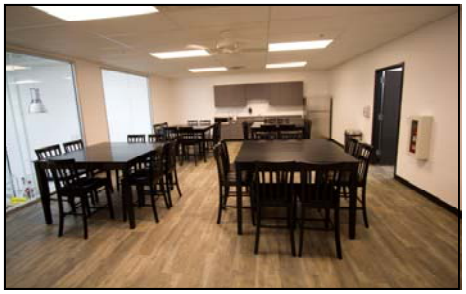
Owner / Developer:
Tandy Leather, Inc.

Role:
Design / Build Contractor

Building Type:
Retail

About This Project:






- Blends steel and glass front wall with traditional tilt-up construction.
- 130-foot decorative wing clad in metal skin spans the front of the building to accentuate the modernistic look. Surrounding the front entrance are two concentric angular entrance features that match the metal wing stylistically.
- Interior showcases 20,000 SF of retail space in a single-bay configuration, where uniquely-shaped shelving units and low flat tables present the store's huge inventory of leather and leathercraft supplies.
- Video screens mounted around the space feature products and instructional demonstrations of leather-working techniques. Accent lighting throughout the interior highlights product displays.
- Large, circular kiosk near the front entrance hosts cashier stations.
- 3,000 SF mezzanine hosts a classroom, employee break room and business offices.
- Building includes an elevator.
