PROJECT PROFILE

TRYBUS GROUP

OFFICE / DISTRIBUTION CENTER - DESOTO, TEXAS

145,106 SF headquarters and distribution center for manufacturer of tailored men's clothing.

Developer: Trybus Group
Architect: Alliance Architects

- Design / build new construction office building / distribution center for Trybus Group.
- Built with tilt-up construction, the facility is finished with multishade earth tones and stone cladding accents.
- The office features luxury finishing with carpet tile, vinyl laminate, wallpaper and multicolor paint, with accent lighting.
- Office includes an open bay work area, executive offices, conference room and an employee break room.
- Warehouse includes more than eight miles of custom-designed racking and rail systems on three levels, with two levels of 12' wide catwalks providing employee access to all three tiers of storage.
- Escalator-styled conveyor system moves product up and down to the different levels of racking.
- Warehouse features 22 truck bays for receiving and shipping, ESFR and in-rack fire suppression systems with TPO roofing and a 32' clear height.
