

American Light Showroom Finish-out

Location:

Fort Worth, Texas

Size:

20,000 SF

Owner / Developer:

Mercantile Partners

Role:

General Contractor

Building Type:

Retail / Warehouse

About These Projects:

- 20,000 SF Finish-out in a building constructed by Bob Moore Construction.
- 6,600 SF of retail space.
- Design features a high tech architecture with an open suspended ceiling grid, several dozen different types of lighting fixtures and 30' curved walls that extend above the open ceiling grid.
- The exposed mechanicals above the grid and brushed aluminum and metallic laminate millwork further enhance the modern and industrial look.
- A large, barrel arched ceiling conference room allows employees to provide training seminars for their clientele, as well as doing in house meetings for staff.
- The suite's remaining 13,400 SF of space is dedicated to product warehousing, with three loading docks for shipping and receiving inventory.
