

Eight-Twenty Blvd. Distribution Centers

Location:

Fort Worth, Texas

Size:

435,180 SF

Owner / Developer:

Xebec Development Co.

Role:

General Contractor

Building Type:

Warehouse / Distribution Center / Office

About This Project:

- Bob Moore Construction was the general contractor for the Eight-Twenty Blvd. Distribution Centers in Fort Worth, Texas.
- The distribution centers, referred to as Building Three and Building Four, add 91,738 SF and 102,807 SF to Xebec's available warehouse space in Northwest Fort Worth.
- Building Three has 24 loading bays, a 24' clear span and four entrances. Building Four has 13 loading bays, two 12' x 14' "drive-in" overhead doors, a 30' clear span and two entrances. Each building provides multiple locations for office spaces and a fire protection system.
- The buildings were built with tilt-up construction. The facilities are safeguarded with a 10' high, keypad-controlled security gate. A 113' wide detention pond was created to the end of Building Three.
