PROJECT PROFILE

GALDERMA LABORATORIES

OFFICE BUILDING - FORT WORTH, TEXAS

Beautiful 100,000 SF office building with curtainwall glass, aluminum composite awnings and open, bright lobby design.

**Owner / Developer: Lincoln Property Group
Architect: Alliance Architects**

- Galderma Laboratories expanded their operations in the Alliance Corridor of Fort Worth with this dramatic 100,000 SF office building.
- Exterior matches the design of three existing buildings on the campus.
- Two lobby entrances feature expansive curtainwall glass and aluminum composite awnings.
- Exterior finish including reveals, spandrel glass and beige colors were designed to match the upscale design of Galderma's three existing buildings on the property.
- Lobby design provides open, clean introduction to Galderma.
- Feature wall showcases tiered planter display and a large staircase with a clean glass and stainless steel railing system.
- Second level provides a balcony area to overlook the lobby, with conference rooms to the front and back.
- Built with tilt-up construction.
