

Leo's Foods Office / Manufacturing

Location:

Fort Worth, Texas

Size:

55,000 SF

Owner / Developer:

Leo's Foods, Inc.

Role:

Design / Build Contractor

Building Type:

Office / Manufacturing / Food

About This Project:

- Located in Fort Worth, Texas, Leo's Foods, Inc. is one of the largest tortilla factories in the Midwest.
- The original tortilla manufacturing facility was completed in 1995 and was doubled in 1998.
- The present plant capability is in excess of 30,000 dozen tortillas per hour. In addition to tortillas, the company packages, under private label, tortilla chips and salsa dips.
- The new warehouse and office building required special plant floor drainage systems, high ceilings and 20,000 SF of built-in refrigerator and freezer space.
- As design / build contractor for this project, Bob Moore Construction built this facility to tight Health Department and USFDA specifications.
