

Oldcastle Manufacturing Facility

Location:

Grand Prairie, Texas

Size:

104,000 SF

Owner / Developer:

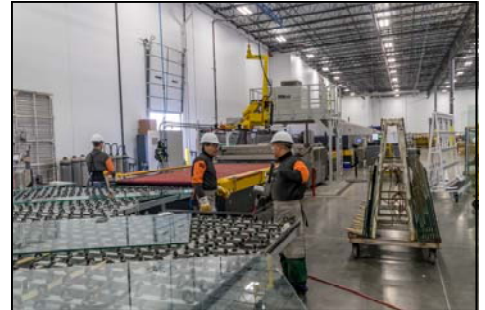

Oldcastle Building Envelope

Role:

Design-Build Contractor

Building Type:

Manufacturing

About This Project:

- 104,000 SF tiltwall addition to existing glass manufacturing facility for North America's largest producer of building products and materials.
- Addition provided a new home for insulated glass line, glass cutting line, and glass tempering lines.
- This addition tripled the manufacturing space at this campus.
- New facility includes two 5000 amp services, 16 overhead cranes, autoclaves, tempering furnace, two cooling towers, and dust collector - all backed up with a generator.
- Oldcastle remained fully operational during this construction project. Project completed safely with no incidents.
