Office

About This Project:

- Bob Moore Construction was the general contractor for the Offices @ 161 / Walnut Hill Building, a 106,800 SF office building in Irving, Texas.
- The building features beige, textured tiltwall construction with large banks of windows to provide maximum light to the interior.
- Each lobby entrance is showcased with a two-story, 41-foot curved curtain wall of glass.
- The main entrance also features a three-pillar stone-clad archway.
- The lobby is finely finished in a high-end modern design style, with luxurious multi-finished tile, indirect ceiling lighting and wood accent trim on the walls and along the staircase.
- A curved grand staircase and elevator provide access to the second floor. The second floor features an expansive common area with curved windows, indirect lighting and accented carpeting.
