

Cinemark 12 Movie Theater

Location:

Mansfield, Texas

Size:

42,265 SF

Owner / Developer:

Kossmann Development Company

Role:

General Contractor

Building Type:

Retail—Movie Theater

About This Project:

- Features a large concession area and seating for 2,010 patrons.
- Exterior features dramatic full-height stone veneer, the first time this finish has ever been used on a Cinemark theater.
- All 12 screens employ top quality Christie projectors, wall-to-wall screens, Dolby digital sound and the most modern version of stadium seating on the market.
- Construction completed almost two weeks ahead of the original schedule. This project was one of the fastest theaters Cinemark has ever built, and the amount of time from when the tilt-up construction panels were stood to the project's completion was shorter than any other theater in the company's history.
- This project received the **Best Of Award** for Sports / Entertainment Facility Construction from *Texas Construction Magazine*.
