

KCI R&D / Call Center Facility

Location:

San Antonio, Texas

Size:

80,000 SF

Owner / Developer:

CMC / Commercial Realty Group

Role:

General Contractor

Building Type:

Office / Call Center / Manufacturing

About This Project:

- The building features a gallery that showcases some of KCI's products and the 90+ patents the company has received.
- A large R&D Lab provides facilities for developing innovations for KCI's Vacuum Assisted Closure® Therapy System, specialty hospital beds and therapeutic surfaces.
- The building also features 35,000 SF of call center space to support the company's patient financial services, and multiple private offices.
- Hardy McCullah/MLM Architects designed the building; Rehler, Vaughn & Koone designed the interior.
- The overall design focuses on open spaces, with high ceilings and indirect lighting, to provide a comfortable environment for employees and guests.
- The KCI building is the 44th successful collaboration between Bob Moore Construction and CMC / Commercial Realty Group.
