

Roe/McCollister Warehouse

Location:

Wappinger, New York

Size:

255,000 SF

Owner / Developer:

Bradford Companies

Role:

General Contractor

Building Type:

Warehouse / Distribution Center

About This Project:

- Nestled in New York's scenic Hudson Valley approximately 70 miles north of New York City, Bob Moore Construction built this warehouse facility to the stringent requirement of the tenant, IBM.
- While the setting is rustic, the Wappinger, NY warehouse is extremely advanced. The environment for this facility is highly controlled with insulated sandwich panels used during wall construction.
- A super-flat floor was a must for the fully automated picking system used to retrieve IBM's computer components in the warehouse.
- Typical of our repeat business performance, this was the second facility built for McCollister by Bob Moore Construction.
